

Alexander Street Press databases conform to Web accessibility provisions of the Americans with Disabilities Act (a.k.a. 508 compliance). We are committed to making our products fully accessible to all patrons.

Information is accessible to those using non-graphical browsers or text reading software. Our interfaces are designed to respond well to screen reading software and other assistive technologies.

We are constantly working to comply fully with Section 508 of the Rehabilitation Act as we integrate new functionality and multimedia such as audio and video to our products.
